

Question 14

14. Please attach evidence of the applicant's managerial and technical resources and ability to provide service. This may be in either narrative form, resumes of key personnel, or a combination of these forms.

Rob Breuche

President

Rob started his career as a Systems Engineer at Electronic Data Systems (EDS). After five years he became the Director of IT Development and Operations, before joining Ameritech (now SBC). At Ameritech, Rob's core responsibility was to drive revenues for their data portfolio and, in doing so, was able to understand the needs of the marketplace to drive product enhancements and direction. After five years he led Ameritech's data sales team.

Rob joined Cable & Wireless in 1999 as Senior Director of Data Solutions and successfully built a team of specialist data consultants to expand upon Cable & Wireless' traditional voice capabilities. In January 2001, Rob was appointed VP Advanced Technologies and Solutions Group, responsible for supporting large enterprise customers and developing the technical sales engineering capability to support SME customers. Specifically, Rob was responsible for integrating the IP Consulting Group, Applications Services Engineering Group, Network Integration Specialists, International Sales Specialists and e-Messaging Consulting.

In March 2003, Rob became VP Global Customer Project Management and Customer Solutions / Support. During his time in this role he built a global organization (Center of Excellence) of Project and Programme Management resources (located in US, UK, Continental Europe, India, Hong Kong, Singapore and Japan) focused on mitigating Cable & Wireless' business risk associated with delivering complex customer solutions while providing value added services to our customers.

As Managing Director of Cable & Wireless in the US, Rob has the responsibility for building a profitable and sustainable telco by driving revenues from retail and wholesale customers who have requirements to, from and within the US.

Question 14 (cont.)
